

FISCAL NOTE

HB 367 - SB 954

February 10, 2005

SUMMARY OF BILL: Requires revenues collected by local agencies for code enforcement to be used solely for the administration of that agency.

ESTIMATED FISCAL IMPACT:

Other Fiscal Impact – Prevents a shift in funds from a codes department to the local government general fund to the extent such department collects excess funds which would be transferred to the general fund of the county in the absence of this bill. Such excess funds cannot be determined but could be significant and could result in a reduction in local government expenditures for other operations of local governments unless surplus funds are available to make up any difference.

Assumptions:

- There will be no net change in total revenues to local governments unless funds that normally are used for other local government agencies require additional revenues to be raised to continue operations at existing levels.
- Expenditures of local governments (other than the codes departments) may be decreased or require the transfer of surplus funds to make up any difference in excess code enforcement funds not transferred to the general funds of such local governments.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.
